

Congratulations

On Your **IMPORTANT CONTRIBUTIONS!**

2007 has been a busy and rewarding year for all of us on Team CACI, with new contract opportunities and major acquisitions that expand the important work we do for the U.S. federal government.

Among the most significant news was our record \$3.3 billion in contract awards for fiscal year 2007 — 68 percent more than the year before.

This included winning a prime position to support the General Services Administration's \$50 billion Alliant program. The Department of Justice showed its continued confidence in us with our recompetes victory on the \$950 million Mega 3 program, and the Navy awarded us a \$330 million contract as part of a joint venture supporting the Space and Naval Warfare Systems Center in New Orleans. Our cumulative task order awards on the U.S. Army Strategic Services Sourcing (S3) contract topped \$1 billion, and we won more than \$220 million in classified contracts with the Intelligence Community.

The year also introduced us to nearly 1,400 more colleagues through our acquisition of the Institute for Quality Management, Inc., Wexford Group International, Athena Innovative Solutions, Inc., and Dragon Development Corporation. I welcome all our valued new teammates and thank everyone for supporting these key acquisitions.

I also note with pride that our CACI Project Philanthropy activities, an integral part of our CACI Culture, kept going strong throughout the year, supporting organizations that help the nation's veterans and assist local communities. I'm particularly proud of our support for Cause, which assists wounded servicemen and women, and our Deploying Talent - Creating Careers program, which identifies qualified disabled veterans and hires them into open CACI positions.

Let's also remember this is a very special time of year ... when the joy of family and the yearning for peace fill our

hearts and inspire our actions. But let us never forget that there are thousands of brave men and women now serving in distant battlefields who will not be with their families. These are America's warfighters, who daily face the dangers of battle so others may enjoy the pleasures of peace. We honor and salute them, and hope for their safe return. We are grateful to all who defend our lives and liberty, at home and abroad.

I congratulate each of you for the important work you have performed this year. Your dedication and excellence enables us to approach 2008 with optimism, vision, and confidence. Together, we will accomplish great things in the days ahead ... for ourselves, our company, and our country. Your contributions make us the *best* in everything we do!
